

TWO KINDS OF CHILDREN

Children that grow too fast and those that seem hardly to grow at all, both need Scott's Emulsion.

It gives that rich vital nourishment which is the secret of all healthy growth. It rounds out the long limbs, and helps children to grow without using up all their strength in growing.

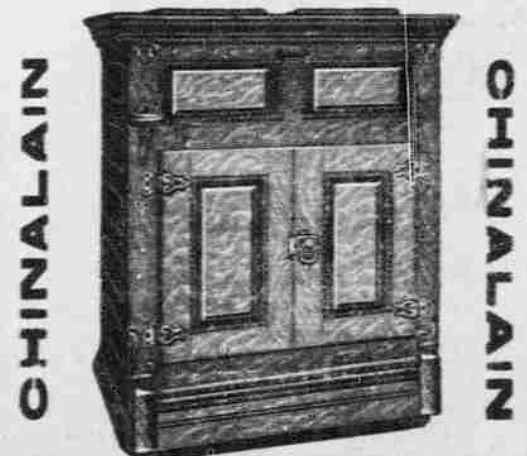

Mothers ought to know more about the wonderful help which Scott's Emulsion would give their children.

There is no secret about Scott's Emulsion. Nothing is covered up by obscure references to "active principles" or "alkaloids."

Scott's Emulsion is simply an emulsion of the best Norwegian cod liver oil combined with the hypophosphites and glycerin.

We'll send you a sample free upon request.

THE NEW FRENCH REMEDY.

THERAPION. This successful remedy, used in the Continental Hospitals by Ricord, Gosselin, Robert, Velpeau, and others, combines all the desiderata to be sought in a medicine of the kind, and surpasses everything hitherto employed. **THERAPION NO. 1** maintains the world-renowned and well-merited reputation for damage to the kidneys, pains in the back, and kindred ailments, affording prompt relief where other well-tried remedies have been powerless. **THERAPION NO. 2** for impurity of the blood, scurf, pimples, spots, blotches, pains and swelling of joints, gout, rheumatism, & all diseases for which it has been too much a fashion to employ mercury, nuxvomaria &c., to the destruction of sufferers' teeth and ruin of health. This preparation purifies the whole system through the blood, and thoroughly eliminates all poisonous matter from the body. **THERAPION NO. 3** for exhaustion, sleeplessness, and all distressing consequences of dissipation, worry, overwork, &c. It possesses surprising power in restoring strength and vigor to those suffering from the enervating influences of long residence in hot, unhealthy climates. **THERAPION** is sold by the principal Chemists and Dispensaries throughout the world. Price in England, 2s. 6d. and 6s. 6d. In ordering state which of the three numbers is required, and observe that the word "Therapion" appears on the British Government Stamp (a white letter on a red ground) affixed to every genuine package by order of His Majesty's Hon. Commissioners, and without which it is a forgery.

NEWS ALONG THE WATERFRONT

THE NEW OCEANIC S. S. WHARF.

GUNBOAT HELENA IN TIGHT PLACE

A private letter received on the Siberia from New Chwang, Manchuria, contains interesting data concerning the Russian occupation of that port. "New Chwang," the letter goes on to say, "is as much a Russian possession as St. Petersburg."

The Russians control the city in every department, administer Russian laws and the Czar's military forces are everywhere about the place.

If war actually breaks out between Japan and Russia, one United States war vessel will be in a tight place, as she is at present. This is the gunboat Helena, which is docked for the winter in a bed of mud and ice. The harbor is frozen up throughout the winter season, and vessels stationed there generally go up the river at New Chwang, find a good soft place in the mud and rest there while the ice forms around. The Helena occupies a position which if a Japanese fleet came off the mouth of the river and commenced bombarding the city, would make her a target for almost every shot.

Even though the Helena were blown to atoms the United States would have no redress.

Light Passenger List.

With a very small list of passengers the Oceanic steamship Alameda arrived yesterday morning from San Francisco. The trip was devoid of rough weather and was uneventful. Among those who arrived were:

E. A. P. Newcomb, the architect, and his sister, Miss Newcomb, who return after a year's absence in the East; Captain Whitney and C. F. Lehnert, U. S. Inspectors of Hulls and Boilers, arrived to make their annual inspection of local craft; Frank Grace returns from the Klondike; G. H. Hellman, a produce dealer in San Francisco, accompanied by Mrs. Hellman, is here on business; F. S. Holt, of Holt Bros., Stockton, Cal., is here for business and pleasure; Frank J. Hare, is the new Postoffice inspector, succeeding L. L. Bricker, who departed for the coast a few weeks ago; F. J. Heger, a business man of San Francisco, is here on his annual visit.

A cargo of 925 tons was brought to Honolulu.

The following vessels were sighted by the Alameda: January 10th, at 1:44 p. m., Lat. 35.24 N. Long. 129.47 W., met S. S. Sonoma, bound N. E.; January 11th, 10:45 a. m., Lat. 33.14 N. Long. 135.51 W., met U. S. T. Sheridan, bound N. E.; January 12th, 10:10 p. m., Lat. 29.00 N. Long. 144.50 W., met S. S. America Maru, bound N. E.

Armstrong for Coptic.

Captain Frank E. Beadnell, who had command of the Coptic on her last visit here, is to be succeeded by Captain Armstrong, late chief officer of one of the White Star steamers in the Atlantic, and formerly chief officer of one of the O. and O. steamers plying between San Francisco and Hongkong. While many persons regret that Captain Beadnell is not to be retained in command of one of the company's liners instead of resuming his former position of chief officer, there are numerous old-time friends of Captain Armstrong who welcome him back to the Pacific route.

To Look After Ships.

W. Walsh, the Pacific Coast representative of the company which owns and conducts the steamers Comenough, now in port, and the steamer Pennsylvania, at Kaanapali, arrived on the Alameda yesterday on business in connection with the vessels.

Coptic Sailed Yesterday.

Hackfeld & Co. received a cablegram yesterday to that the Coptic left San Francisco for Honolulu at 2 p. m.

STOMACH AMMUNITION FOR JAP AND RUSS ON COPTIC

The first big consignment of foodstuff supplies intended for the Japanese army and navy will pass through here on the Coptic which sailed yesterday afternoon at 2 o'clock from San Francisco. Other shipments, already being made up in San Francisco will follow on the Gaelic and the Doric. About 3,000,000 pounds of mess beef from Kansas City and Omaha for delivery to Japanese authorities went partly through on the Siberia and partly by a northern route steamship.

Russia has also placed an order for a quarter of a million dollars worth of foodstuffs in San Francisco. The orders for beef amount to \$80,000; salmon and other fish, \$30,000; pickled meats about \$70,000 and canned goods about \$45,000. Large supplies of mess beef for the Russians went by way of Tacoma and Seattle.

The price of beef on January 6 advanced 25 and 50 cents per 100 pounds in Chicago, but dropped the next day, rising again 50 cents per hundred pounds the day before the Alameda sailed.

LIGHTHOUSE ESTIMATES CALLED FOR

The Bureau of Navigation at Washington has called upon the local lighthouse inspector to furnish estimates of the cost of maintenance of lighthouses in the Islands up to July 1. The estimates may include a request for an appropriation for the maintenance of an office disassociated with the Naval Station.

E. N. Shaw arrived on the Alameda yesterday to act as clerk to the lighthouse inspector.

Shipping Notes.

The A.-H. S. S. Nevada sails from San Francisco for Honolulu on January 18th.

The bark Kalulani will sail for San Francisco with a cargo of sugar, on Tuesday, January 19. She will carry passengers.

A. H. Gaffney, formerly Japanese interpreter for the Honolulu Immigration office, who has been performing similar work in Seattle, has been promoted to be an inspector in the same service.

A consignment of six leg irons and six wrist irons arrived per the Siberia for Captain Catlin of the Marine Corps. This is the first batch of supplies for the detachment of marines who will arrive here in February.

The steamer Maui yesterday began the new service inaugurated by the Wilder Company, which is to sail for Kawaihae, Mahukona, Papaiaoa and Laupahoehoe, after the arrival of the Alameda each month from the coast.

A decision arrived at by the Cabinet at Washington that government employees must work half an hour longer, will affect Federal employees here, especially in the Customs service. The Federal day formerly closed at 4 p. m.

The gasoline schooner Eclipse went on the marine railway yesterday to be cleaned and painted and to receive a new tail shaft. She will come off the ways on Monday morning, receive freight at Bishop wharf, and sail at 5 p. m. the same day for Anahola.

Captain Whitney and Carl F. Lehnert, Inspectors of Hulls and Boilers, accompanied by their secretary, George Claegert, arrived on the Alameda, and will inspect local steamers for the next month, taking in Kahului and Hilo. They go to Hilo next Tuesday. Examinations of local seafaring men will take place under the inspectors for renewal of licenses.

FORTIFY HAWAII, DEFEND CABLE

The need of promptness in fortifying the more important ports in our insular territories, which has recently been pointed out in these columns, is clearly recognized in a communication transmitted to the House of Representatives by the Secretary of War. In this communication Mr. Root presents a supplemental estimate of \$2,526,100 to be included in the Army Appropriation bill, the purposes of which are fully explained as follows: "Defenses for Porto Rico, the Hawaiian Islands, Guam and the Philippines are urgently needed to protect the newly acquired territory of the United States and Government property to be stored there, also to prevent interruption of cable communication between San Francisco, the Territory of Hawaii and Manila. This estimate is submitted with the object of beginning the construction of these defenses at once at such insular localities as are now the property of the United States or may become so before the appropriation is exhausted, and of acquiring additional land needed as sites for defenses of the Territory of Hawaii."—Army and Navy Journal.

Andromeda Again.

The Chronicle of January 8 says: It is reported the bark Andromeda has been refused entry at an Australian port under the American flag. The vessel, while bound from Newcastle, Australia, for this Coast, was dismasted in a storm and put into Honolulu. She was purchased there by the Charles Nelson Company of this city and taken to Eureka, where the American flag was temporarily substituted for British registry, under which the Andromeda sailed.

Rosamond Clears for Kahului.

Yesterday the J. T. Steeb Shipping Company cleared the schooner Rosamond, Captain Fernald, for Kahului, with a cargo of lumber loaded by the Tacoma Mill Company. It includes 83,000 feet of rough lumber, 185,475 feet of "T. & G." and 41,691 feet of surfaced "T. & G." 250,000 shingles and 75,000 lath. The Rosamond will be towed to sea today.—Tacoma Ledger, Jan. 1.

IT WILL NOT DO to fool with a bad cold. No one can tell what the end will be. Pneumonia, catarrh, chronic bronchitis and consumption invariably result from a neglected cold. As a medicine for the cure of colds, coughs and influenza, nothing can compare with Chamberlain's Cough Remedy. It always cures and cures quickly. BIGGEST STEAMER READY TO START

SAN FRANCISCO, Jan. 9.—The new mammoth Pacific Mail liner Mongolia is expected to start from Camden, N. J., for this coast about the 1st of February, and her advent is being awaited with great interest, as the steamer will be the largest passenger liner on this coast. The Mongolia was recently purchased by the Pacific Mail Company, which at the same time bought her sister ship, the Manchuria. R. P. Schwerin, the general manager of the Pacific Mail Company, departed for the East several days ago to start the steamer on her voyage to this coast. Captain Rinder, who is to command the vessel, is already at Camden, and has charge of the steamer, which is expected to go on her trial trip in a few weeks.

The Mongolia measures 620 feet in length, has a beam of sixty-five feet and a draught of thirty-three feet. She has four masts, one funnel and six decks. The vessel has accommodations for 350 saloon passengers and in her capacious hold she can carry 15,000 tons measurement. She is expected to average nineteen knots, and will be the fastest vessel on the Pacific.

There is a great deal of conjecture concerning the use to which the Pacific Mail Company intends to put the two new vessels. It is generally understood that two of the British steamers now being operated by the O. and O. line will be replaced by the Mongolia and Manchuria. It is also rumored that the steamers may run in Harriman's Portland and Asiatic line.

The mails at the San Francisco ferry postoffice will close one hour before the sailing of vessels for Honolulu, instead of two as formerly. This is done to aid business men.

NOTICE.

Notice is hereby given of the change of location of the Agency for the Hawaiian Islands of THE GERMANIA LIFE INSURANCE COMPANY of New York. The new offices will be opened on and after February 1, 1904, in the Alexander Young Building, corner of Bishop and King streets, Honolulu, directly over the von Hamm Young Company, to where business connected with the agency and all communications should be addressed.
